

Peace of mind at your fingertips

You will never need to face a medical emergency alone

Introducing your Personal Emergency Response System (PERS)

Gold Kidney's PERS device is more than a simple button. PERS can help guide with your medical needs — it's like having a personal assistant with you at all times. The device works anywhere and connects you to our care network with one easy push.

You can use it to:

- ✓ Connect you to medical advice for emergencies or discomfort
- ✓ Help you schedule medical appointments
- ✓ Get in touch with a family member
- ✓ Arrange transportation to a healthcare facility
- ✓ Hear a friendly voice

REASONS WHY PERS IS GREAT TO HAVE

PERS is a type of medical alert system, that provides continuous in-home and mobile monitoring wherever you are.

PERS allows you to call for assistance 24/7/365, whether you are at home or on the go.

You are immediately connected with a trained professional who will assess the nature of the call and coordinate the assistance you need.
